

## DANGEROUS GOODS LOGISTICS FOR LITHIUM ION BATTERIES

- Worry-free package
- Specialist in Li-ion battery transportation
- Highly trained staff
- Hazardous materials experts
- Permission to collect, carry and broker dangerous waste
- Transport batteries of all sizes
- Forklift service
- Europe-wide waste disposal logistics
- Express service
- Own training centre and concept
- Provision of own dangerous goods transport containers for transporting critically defective or damaged cells, modules and batteries with our [SafetyBATTbox](#)

+ SafetyBATTbox XL-1 | L-1 | M-1  
+ GPS tracking  
+ Container management  
+ Rating transport safety

+ Training ADR 1.3  
+ Packaging training  
+ e-learning

## LI BATTERY LOGISTICS NO STONE LEFT UNTURNED

- **Worry-free package**
  - + Deal with all possible dangerous goods processes: Not only carrying but also packing, loading, marking and transportation of UN3480 lithium-ion batteries on request.
- **Specialists in lithium-ion battery transportation**
  - + 5 years of experience in lithium-ion battery logistics -> New Technology = New Rules = New Opportunity.  
A lead acid battery is not a lithium ion battery. Therefore, there are new rules and new dangers as well as technical features.
- **highly trained staff**
  - + Our employees are our capital and our advertising. We make sure that our employees receive regular in-house and external training. Benefit from our employees having more than 5 years' experience in the field of lithium-ion batteries.
- **Hazardous materials experts**
  - + Own dangerous goods experts and hazardous goods organisation ensure the competent and lawful implementation of all logistics processes.
- **ISO 9001 and 14001 certified**
  - + Experienced and documented processes ensure the safe implementation of all legal regulations and a consistently high level of quality.
- **Modern vehicle fleet from sprinter to lorries**
  - + All vehicles are adapted to meet the demands made of them and comply with the applicable ADR Dangerous Goods Acts. You won't experience situations such as an expired extinguisher or defective/lack of load security with us.
- **Europe-wide waste disposal logistics**
  - + Cooperation with several disposers of lithium-ion batteries.
- **Worldwide logistics**
  - + We are happy to organise worldwide transport as a forwarding service.
- **Express service**
  - + For those occasions when things need to happen really quickly, our express service is the perfect solution for fast removal.
- **Own training and consulting concept**
  - + Specially trained staff as well as advice and training for your employees.
- **Consulting**
  - + We would be happy to advise you on how to optimise cost and benefits.
- **Provision of dangerous goods transport boxes, SafetyBATTboxes, developed by us**
  - + also for critically defective transportation, SV376 (defective) or SV310 (prototype).
  - + different sizes

## CONSULTING AND TRAINING SERVICES

### We design for you

- Logistics concepts in the field of internal transport within your company
- Recycling concepts
- Storage concepts
- Safety concepts
- Checklists

### We train and instruct your team

- on the subject of dangerous goods processing of lithium-ion batteries (in accordance with ADR 1.3)
- Packaging and handling of critically defective batteries in connection with the SafetyBATTboxes
